

No one needs to take another's help to keep their chakric system strong and healthy. You have the power, if you know how. Here is an Eight-week Chakra Unblocking Email Program that shall teach you energy methods and practical ways to clear, unblock and strengthen your Chakras. It shall also enlighten you about the crystals and Bach Flower Remedies you can use if you should wish to do so. You shall be taught how to recognize that your Chakras are blocked, to identify which blocked chakra is at the root of the problem, and what could have caused the block.

Each week you shall receive one lesson that you can use to heal and strengthen yourself and others. In this manner, you shall not only learn this vital knowledge, but shall simultaneously use it too. This also provides you with the opportunity to email me about any difficulties that you might have faced during that week while following the methods.

This distance program is available globally, and the energy exchange can be deposited into the bank account. Please email me for details if you wish to register.

Strength. Health. Smiles.
