You are not what you were yesterday, so why do you live as though you were? Catch up with your new energy system, understand it, and enhance your Life Experience. Healing methods that focus upon the old system are very limited.

E.g. Did you know that

> For the ascension process the eleventh chakra is of vital significance, and your ability to use it correctly can enhance how you live and experience your life?

>The 12th chakra is the symbol of your individualized monad, and is the doorway to the cosmos....and beyond?

>The nasal chakra which rules the sinuses is significantly affected by, and in turn influences, the attitudes we portray?

Have a brief look at the ten modules.
